***Committed
to
Better Care....***

For day & Night control
of acid-Peptic Disorders

PPNIP-DSR

Pantoprazole 40mg + Domperidone 30mg (SR) Capsules

Pantoprazole : a better choice

Specifically binds to region of the proton crucial for H⁺/K⁺ - AT
Pase activity & acid transport

More stable in neutral to moderate acidic pH

Domperidone

Relieves emesis by antagonism of dopamine receptors in CTZ
Increases rate of gastric emptying

Gastroesophageal reflux disease (GERD)

Non-Ulcer Dyspepsia

Duodenal Ulcers

NSAID'S Induced Ulcers

Gastric Ulcers

Also Available

PPNIP-LSR

Pantoprazole 40mg + Levosulpiride 75mg Capsules

Sustained release formulation of Domperidone
improves patient compliance without compromising on the efficacy

GET RELEASED FORM
DISTRESS OF GERD

RPNIP-DSR

Rabeprazole 20mg + Domperidone (Sustained Release)30mg Capsules

RABEPRAZOLE

Only PPI metabolised by
Non-CYP pathway

No drug-drug interactions

Safe in patients taking multiple
medications¹

DOMPERIDONE

More effective than cisapride²

Domperidone improves GI motility

Ensures drug release over 24 hours
indicating no precipitation

Offers consistent acid suppression
even during night time

INDICATION

Dyspepsia

GERD

Drug induced gastritis

Peptic Ulcer

Nausea & Vomiting

STARTS EARLY,
STAYS LONG

Also Available

RPNIP-LSR

Rabeprazole 20mg + Levosulpiride 75mg Capsules

1. Digestive Diseases & Sciences 2001 Vol 15, 1002-6

In the management of GERD

Osmoflux-DSR

Esomeprazole 40 mg & Domperidone 30 mg (SR) Capsules

EFFECTIVE ACID CONTROL IN REFLUX DISORDER

Esomeprazole provides more effective intragastric acid control (mean pH>4.0 for 14 Hrs.) than other PPI, like Pantoprazole(10.1 Hrs.), Rabeprazole(12.1 Hrs.), Omeprazole(11.8 Hrs.), Lansoprazole(11.5 Hrs.) standard dose in patients with GERD.*

Esomeprazole 40 mg is more effective than Pantoprazole 40 mg for healing Erosive Esophagitis (EE) and heart burn.**

When
Everything
**Makes Feel
Acidity**

OPNIP 20

Omeprazole 20mg Capsules

- Inhibits acid secretion at a level needed for the best clinical results
- Reaches this level of inhibition rapidly
- Sustains a high level of inhibition throughout the day and night

Indicated in

- Gastritis
- Gastric Hyperacidity
- Acid Peptic Ulcers
- Drug Induced Hyperacidity

Also Available:

℞ **OPNIP-D**
Omeprazole 20mg + Domperidone 10mg Capsules

When Fever become too dangerous and needs double dose of Antypyretic

PARAXA-250

Paracetamol 250 mg Suspension

- Excellent and safe choice for acute and chronic painful conditions
- Pain relief over 4 to 6 hours, post operative
- No intense excitement
- Gastro friendly
- Rapidly reduces temperature
- Drug of choice for osteoarthritis

Also Available

PARAXA-125
Paracetamol 125 mg Suspension

PARAXA- **500** **650** Tablets
Paracetamol 500/ 650 mg

INDICATIONS :

- Back ache
- Acute post surgical conditions
- Osteoarthritis
- Dental conditions
- Myalgia
- High Fever

Don't Let the **Pain**
or **Infirmity** Win...

ACETHICS-R

Aceclofenac 100mg(SR) + Rabeprazole 20mg Capsules

Aceclofenac

- Superior to Diclofenac
- Selective COX 2
- Well-established anti-inflammatory action

Rabeprazole

- Potent inhibitor of gastric acid secretion

Indications:

- Post-operative Pain
- Dental Pain
- Pain associated with Injuries
- Musculoskeletal Pain
- Fever & Body Aches
- ENT Inflammation
- Osteoarthritis

IDEAL FOR LONG TERM USE IN ARTHRITIS

In Pain & Inflammation

ACETHICS-P

Aceclofenac 100 mg + Paracetamol 325 mg Tablets

- Superior & safe analgesic effect
- Excellent Cyclo Oxygenase inhibitor
- Uncomparable Anti-inflammatory & Anti-pyretic effect
- Potent & effective combination for patient complains

In

- ◆ Rheumatoid Arthritis
- ◆ Osteoarthritis
- ◆ Spondylitis
- ◆ Low Back Pain
- ◆ Post Operative Inflammation
- ◆ Dental Pain

Also Available

ACETHICS-P
Aceclofenac 50mg + Paracetamol 125 mg Suspension

Relives Pain without GI trouble

**Break the Chain of
PAIN**

ACETHICS-SP

Aceclofenac 100 mg + Paracetamol 325 mg + Serratiopeptidase 15mg Tablets

Trio That Excels in Healing

ACECLOFENAC

Reduces Pain
Prevents Further Inflammation

PARACETAMOL

The universally accepted
analgesic, antipyretic
Acts synergistically with Aceclofenac

SERRATIOPEPTIDASE

Resolves edema and swelling
Clears tissue debris
Improves microcirculation – hastens recovery

Indications :

- Post Operative Wounds
- Arthritis
- Trauma & Fractures
- Low Back Pain
- Sports injuries
- ENT Inflammations
- Dental Pain & Surgery

Also Available

ACETHICS-MR

Aceclofenac 100 mg + Paracetamol 325 mg +
Chlorzoxazone 250 mg Tablets

A Different approach to pain management

ACETHICS-TH4

Aceclofenac 100mg + Paracetamol 325mg + Thiocolchicoside 4mg TABLETS

- Thiocolchicoside, the trusted muscle relaxant with anti-inflammatory and analgesic actions
- Combination achieves better pain relief and ensures better quality of life
- Relaxes certain muscles in body and relieves the stiffness, pain & discomfort
- Aceclofenac is significantly more effective than diclofenac in improving knee flexion after 2-4 weeks of treatments

Also Available

ACETHICS-TH8
Aceclofenac 100mg + Paracetamol 325mg + Thiocolchicoside 8mg TABLETS

INDICATED IN :

Musculoskeletal Acute low back pain

Postoperative Pain

Neck & Shoulder Pain

Neuromuscular

Control the Pain with Triple action formula

DICLOKUL-P

Diclofenac 50mg + Paracetamol 325mg Tablets

Diclofenac Potassium:

- Faster absorption and faster onset of analgesia than diclofenac sodium

Paracetamol:

- Synergistic efficacy in more severe pain with other NSAIDs¹

1.Pain, Volume 121, Issues 1-2, March 2006, Pages 22-28

Sports Injuries

Post-Surgery Inflammation

ENT Inflammation

Dental Pain and Inflammation

ALSO AVAILABLE

DICLOKUL-SP

Diclofenac 50mg + Paracetamol 325mg + Serratiopeptidase 10mg Tablets

In the management of pain...

Diclokul *Gel*

Diclofenac Diethylamine, Linseed oil, Methyl salicylate & Menthol Gel

Relieves Pain Ensures free joint movement

Diclofenac Diethylamine

The potent analgesic

Linseed Oil

Acts as local anesthetic
For relieving pain of arthritic inflammation

Methyl Salicylate

The Rubefacient
Diverts the pain sensation

Menthol Gel

Provides the soothing effect on skin

IN

Low Back Pain

Swelling Inflammation

Sport Injuries

Muscular Pain

Sprain and Strain

Joint Pain

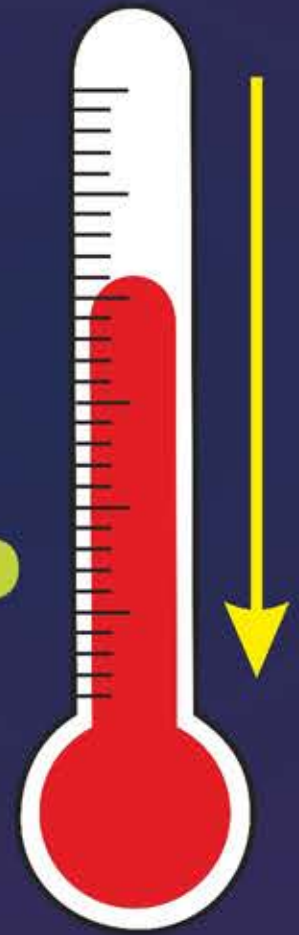

Sigh of relief within moments...

**SAFE LAP OF
PAIN RELIEVER
& FEVER REDUCER**

NIMETHICS-P

Nimesulide 100mg + Paracetamol 325mg

TABLETS

NIMESULIDE

- Selective COX-2 inhibitor
- Rapidly and extensively absorbed in children
- Effective as analgesic and anti-inflammatory agent
- Well tolerated by the gastric mucosa

PARACETAMOL

- Effective antipyretic in infants and children

Indicated In

- ← Common Cold
- ← Sore Throat
- ← Flu
- ← Headache
- ← Toothache
- ← Fever

Ensures A Potent yet
Safe END to The
“Pain-Spasm-Pain Cycle”
BETACOX-TH4

Etoricoxib 60mg + Thiocolchicoside 4mg TABLETS

ETORICOXIB

Produces high levels of
good quality pain relief after surgery¹

**Fewer upper gastrointestinal (GI)
adverse events** than nonselective NSAIDs²

THIOLCHICOSIDE

Muscle relaxant with **anti-inflammatory &
analgesic properties³**

Better efficacy and safety than tizanidine⁴

SKELETAL MUSCLE SPASM | SPRAIN & STRAIN

POST-OPERATIVE PAIN

ACUTE/CHRONIC LOW BACK PAIN

Also Available

BETACOX-90/120

Etoricoxib 90 /120mg Tablets

To treat Edema
& Inflammation

Rutwin

Trypsin 48mg + Bromelain 90 mg + Rutoside 100 mg Tablets

An Unmatchable Combination for Rapid Healing

Effective & Safe Alternative

- ANTI-INFLAMMATORY AGENT¹
- IN THE TREATMENT OF PAINFUL OSTEOARTHRITIS OF THE KNEE AS COMPARED TO DICLOFENAC²
- FOR THE CONTROL OF POST-OPERATIVE PAIN³
- TO TREAT POST-TONSILECTOMY PAIN⁴

Rheumatoid Arthritis
Osteoarthritis **Inflammation of Traumatic Origin**
Inflammation following surgery
Spondyloarthropathies
Tendonitis & Bursitis

Also Available

RUTWIN-D

Trypsin 48mg + Bromelain 90mg +
Rutoside 100mg + Diclofenac 100mg Tablets

**MEET
THE CURE IN
ABDOMINAL
PAIN**

MEFIMIC SPAS

Dicyclomine Hydrochloride 10mg + Mefenamic Acid 250mg Tablet

- An ideal combination of antispasmodic and analgesic agent, takes care of SPASM & PAIN
- Drotaverine is an effective spasmolytic that brings about rapid relief from spasm and Mefenamic Acid is a well-established, powerful analgesic agent
- Combination provide comprehensive pain relief
- Drotaverine allays the early-onset pain and potentiates the sustained analgesic effect of mefenamic acid

INDICATED IN

Uterine irritability and pain

Primary & Secondary Dysmenorrhoea

Post Surgical Uterine Spasm

GI colic, renal colic, biliary colic

Also Available

MEFIMIC-P DS

Mefenamic Acid 100mg + Paracetamol 250mg Syrup

HEFTYCAL K2

Calcium Carbonate 1250 mg + Calcitriol 0.25 mcg + Magnesium Hydroxide 20 mg + Zinc Sulphate Monohydrate 7.5 mg + Methylcobalamin 1500 mcg + L-methyl folate 800 mcg + Vitamin K2-7 50 mcg **Softgel Cap.**

- Vitamin K2-7 improves bone quality by decreasing the serum ucOC and pentosidine concentrations, without any substantial adverse effects.
J Bone Miner Metab. 2013 May 24.
- Calcium citrate is a highly bioavailable source of calcium which is the building block of bones.
- Calcitriol is the active form of vitamin D & increases the level of calcium in the blood by increasing the uptake of calcium from the gut into the blood and increasing the release of calcium into the blood from bone.
- Zinc important participants in bone formation and play an important role in the formation of hydroxyapetite.

INDICATIONS :

Frequent fractures

Low BMD

Hyperarathraidism

Multiple sclerosis

Osteoporosis

Rickets

Also Available

HEFTYCAL-CT

Calcium Carbonate 1250 mg + Calcitriol 0.25 mcg + Zinc Sulphate Monohydrate 7.5 mg **Softgel Cap.**

HEFTYCAL-D

Calcium Carbonate 1250mg + Vitmain D3 250 I.U. **Tablets**

Complete support for healthy growth & development

INFION-D3

Cholecalciferol 400 IU Drops

- Regulates the immune system
- Maintains healthy nerves and muscles
- Stimulates the body to absorb calcium for strong bones & teeth
- Promotes healthy growth & development in infancy & childhood

Impaired Growth

In Vitamin D3 Deficiency

Rickets

Raises Healthy & Strong Babies

Also Available
INFION-D3 60K

Cholecalciferol 60,000 IU Softgel Capsules

Since women have greater longevity than men

FERTEK-XT

Ferrous Bisglycinate 30 mg + Folic acid 550 mcg + Zinc 5 mg + Cyanocobalamin 2 mcg

Ferrous Bisglycinate

- Absorption is highest amongst all ferrous salts ensure fast HB rise

Folic Acid

- Prevent neural tube defects
- Helps in formation of DNA

Cyanocobalamin

- Prevent Premature Birth

Also Available

FERTEK-XT

Ferrous Ascorbate 100 mg + Folic acid 1.5mg + Zinc 22.5 mg **Softgel Capsule**

In:

Pregnancy & Lactation
Iron Deficiency Anaemia
Menorrhagia

The next generation haematinic

Proven Protection & Prevention, in Allergy & Asthma

CURONIX-M

Montelukast 10mg + Levocetirizine 5mg **Tablets**

- Powerful combination of leukotriene receptor antagonist (LTRA) and antihistamine
- Reduces bronchoconstriction caused by the leukotriene
- Reduces daytime and nighttime allergy symptoms
- Reduces peripheral blood eosinophils, a marker of inflammation

Also Available

CURONIX-5

Levocetirizine 5mg **Tablets**

CURONIX M-KID Syrup

Montelukast 4mg + Levocetirizine 2.5mg

Indicated In

- Allergic Rhinitis
- Chronic Idiopathic Urticaria
- Asthma
- Cold Urticaria

Deliver the complete control with safety...

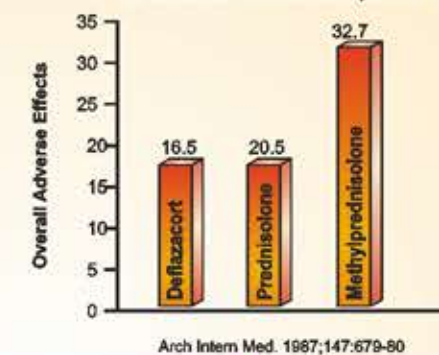

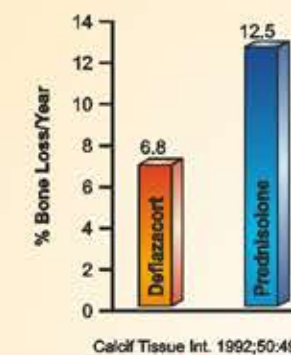

DJ-6 **Tablets**

Deflazacort 6mg

- Treatment of choice for long-term therapy for people at higher risk of metabolic side effects¹
- Initial option in children requiring corticosteroid therapy¹
1. Indian J Dermatol. 2008; 53(4): 167-170.
- Lesser depression of osteoblasts than prednisolone²
2. Clin Rheumatol. 1988; 7:366-71.
- Induces lesser glucose intolerance and insulin resistance than betamethasone³
3. J Clin Endocrinol Metab. 1998; 83:3795-802.

SEVERE ALLERGY | ASTHMA | RHEUMATOID ARTHRITIS | ULCERATIVE COLITIS

Also Available

DJ 12

Deflazacort 12mg **Tablets**

DJ 6

Deflazacort 6mg **Suspension**

For intravenous or intramuscular administration

STEROMUST 48

Methylprednisolone 4 mg & 8 mg Tablets

Benefits

- ▶ Used as replacement therapy in adrenocortical deficiency states
- ▶ Potent anti-inflammatory effects in disorders of many organ system
- ▶ It modifies the body's immune responses to diverse stimuli

Compared to prednisolone

- ▶ Methylprednisolone has greater anti-inflammatory potency
- ▶ Less tendency to induce sodium & water retention

Compared to Hydrocortisone

- ▶ Intermediate-acting product, and four to five times more potent than hydrocortisone

- **Demonstrable effects are evident, within one four and persist for a variable period**
- **Rapid intramuscular absorption**

Quick and Restful Relief
from Cold Symptoms...

ZAPCOLD PLUS

Paracetamol 500 mg + Phenylphrine 5 mg + Cetrizine 5 mg Tablets

- Highly potent anti-allergic
- Acts both on the early and late allergic response
- Analgesic and antipyretic
- Relieves associated body ache and discomfort
- Orally active decongestant
- Reduces nasal congestion and improves nasal airway breathing

Allergic Cold and Body Ache

Allergic Rhinitis

Sinusitis and Fever

Also Available

ZAPCOLD DS

Paracetamol 250 mg + Phenylphrine 5 mg +
Chlorpheniramine maleate 2 mg

Syrup

EXOFEX- AT

Ambroxol 15mg + Guaiphenesin 50mg +
Terbutaline 1.25mg + Menthol 1mg SYRUP

Terbutaline Sulphate

- ⇒ Potent β_2 -adrenergic receptor agonist that act as bronchodilator
- ⇒ Improves both day and night cough

Ambroxol

- ⇒ Potent mucolytic and expectorant agent
- ⇒ More effective than Bromhexine on improving cough

Guaiphenesin

- ⇒ Removes phlegm from the airways
- ⇒ Stimulates the flow of respiratory tract secretions, allowing ciliary movement to carry the loosened secretions upward toward the pharynx

Menthol

- ⇒ Exhibits counterirritant property
- ⇒ Soothes the bronchus and provide cooling effect

REMOVES SUFFOCATION
FOR SMOOTH RESPIRATION

**CAPTURE FRESH AIR
FOR SMALL KIDS**

- ◆ BRONCHIAL ASTHMA
- ◆ CHRONIC BRONCHITIS
- ◆ COPD

EXOFEX D

Dextromethorphan Hbr+Chlorpheniramine
2mg+ Phenylephrine 5mg Syrup

Dextromethorphan

- ◆ Offers effective anti-tussive & analgesic action.
- ◆ Devoid of constipating & addicting action.

Chlorpheniramine Maleate

- ◆ Controls allergic symptoms Like sneezing & mucus secretion

Phenylephrine HCl

- ◆ Relieves nasal & sinus congestion.
- ◆ Exerts No "after congestion" or cardiac manifestation.

Also Available

EXOFEX D Junior

Dextromethorphan Hbr+Chlorpheniramine
+ Phenylephrine Syrup

Indication

- ✓ Dry Cough
- ✓ Sneezing
- ✓ Nasal congestion
- ✓ Allergic & Vasomotor Rhinitis

Relieves Congestion... Without Sedation

**Perfect
Formula
for Cough
& Cold**

EXOFEX-BR

Bromhexine + Guaphenesin + Terbutaline + Menthol **Syrup**

Terbutaline is fast-acting bronchodilator

Guaiaphenesin reduces the viscosity of secretions in the trachea and bronchi

Bromhexine increases the production of serous mucus in the respiratory tract and makes the phlegm thinner and less sticky

Indicated In

- Acute Cough
- Abnormal Mucus Secretion
- Productive Coughs

*A Safe & Effective Option In
Treating Asthma Symptoms.....*

EXOFEX-LS

Levosalbutamol 1mg+ Ambroxol30mg + Guaiphensin 50mg

Syrup

Levosalbutamol

Rapid action bronchodilator

Relaxes the smooth muscle thus ensures comfortable breathing

No side effects like tachycardia, hypokalemia

Ambroxol

Time tested mucolytic agent

Breaks mucus, ensures faster expulsion

Guaiphenesin

Excellent expectorant action

Soothes inflamed throat

Asthma
Chronic obstructive
Pulmonary disease (COPD)
Productive cough
A co-prescription in RTIs

Also Available

EXOFEX-LS Junior

Levosalbutamol 0.5 mg + Ambroxol 15 mg +
Guaiphensin 50 mg **Syrup**

.....Easy breathing all season

**Relieving The
Motion Sickness
And Nausea
&
Well Tolerated**

MISONET MD 4

Ondansetron 4 mg Dispersible Tablets

Control nausea in patients receiving highly emetogenic chemotherapy
Single oral dose for prevention of postoperative Nausea & Emesis
Facilitates oral dehydration
Controls Nausea & Vomiting in just 10 minutes in pre & post operatives
10 times safer than Domperidone without any
extrapyramidal symptoms (EPS)

1st Line Antiemetic.. for 1st Dose Success

Post operative Nausea & Vomiting

Chemotherapy induced Nausea & Vomiting

Also Available **MISONET**
Ondansetron 2 mg/ 5 ml Drops

Now...
Avoid
Vomiting
During
Pregnancy

MISONET-DP

Doxylamine 10mg + Pyridoxine 10mg + Folic Acid 2.5mg Tablets

DOXYLAMINE + PYRIDOXINE

- ❑ Most proven, safe, effective medication available for reducing nausea & vomiting during pregnancy¹
- ❑ Active anti-allergen, controls histaminic reactions
- ❑ Decreases the need of hospitalization for excessive vomiting in pregnancy²

FOLIC ACID

- ❑ Decreases the prevalence of megaloblastic anaemia in fertile women
- ❑ Ensures the safe pregnancy, free from the risk of Neural tube defects

**Nausea & Vomiting are common in Pregnancy,
affecting 70% to 80% of all pregnant women***

(* Gastroenterol Clin North Am. 2011 Jun;40(2);309-34)

1. American Journal of Obstetrics and Gynecology, 2002, 19(5) 5253-5255

**... Accomplish the dream
of healthy motherhood**

When Neuropathic Pain Tortures Life improvising Nerving Strength

METCOBALIN-OD

Methylcobalamin + Pyridoxine + Alpha Lipoic Acid + Folic Acid

- Optimises Metabolic processes
- Neutralises stress mediator & revitalises immune system
- Essential during post operative conditions
- Prevents bones, joints & other chronic diseases
- Essential during anemia & debilitating conditions

Superior retention

Better retained the liver & other tissues

Active Methylcobalamin

The neurologically active, most bioavailable & best utilized B12 derivative

Rejuvenating Power

Clinical studies have documented the efficiency of Methyl B12 is slowing down or even reversing the effects on nerve tissues.

Also Available

METCOBALIN-P

Methylcobalamin 750mcg + Pregabalin 75mg Capsule

XTRAPRO

Protein powder with DHA, Multivitamins, Antioxidants, Minerals, Iron, Calcium and Cyanocobalamin

A uniquely blended natural ultra filtered Soya protein with vitamins, minerals & carbohydrates

Adjuvant In

- Stress
- Trauma
- Old Age
- Pregnancy
- Body Building
- Convalescence
- Growing Children

- ✓ Enhances haemoglobin level
- ✓ Maintains body tissues & function
- ✓ Strengthens nervous system
- ✓ Increase resistance to stress
- ✓ Maintains positive nitrogen balance
- Boosts up immune system

DHA:

- Helps in the brain & vision development of fets
- Reduces pregnancy related complications

Available In
Chocolate and

Available In

Mango Flavour Mint Flavour

Magnesium Hydroxide & Aluminium Hydroxide

Prompt yet sustained antacid action as gel rapidly reacts with acid

Stimulates production of cytoprotective prostaglandin thus provides mucosal protection & soothes the mucosa

Simethcone

Relieves associated indigestion , Flatulence & reflux

HYPERACIDITY | **DYSPEPSIA** | **FLATULENCE** | **GERD**

THE PATIENT'S FRIENDLY BOWEL REGULATOR

PIC OUT

Lactulose 10gm **Suspension**

Treats chronic constipation by

- Draws water into the bowel through osmotic action
- Active water retaining action softens stools
- Draws ammonia from the blood into the colon where it is removed from the body
- Therapy increases the number of bowel movement per day
- Safe & effective for all age groups to administer daily even for decades

CORRECTS HEPATIC ENCEPHALOPATHY EFFECTIVELY

Rx Suspension **PIC-OUT PLUS**

Sodium Picosulfate 5mg, Milk of Magnesia 3.75ml, Liquid Paraffin 10mg & Sorbitol base

Sodium Picosulphate

- Is recommended instead of lactulose for use
- In patients undergoing cancer or opioid treatment, can be used when patients fail to respond to traditional therapies.
- Shows good
- Efficacy in cleaning the colon but with better tolerance than Saccharosum + Sennoside-B.

Milk of Magnesia

- Acts as a laxative as well as helps neutralize excess gastric acid.
- Absorbs water from the surroundings by osmosis, increasing the water content and volume of feces thus naturally stimulating intestinal motility.

Liquid Paraffin

- Acts as a lubricant which reduces friction between stool and intestinal wall to pass the stools smoothly.

Sorbitol

- Can be used as a non-stimulant laxative, exerts its laxative effect by drawing water into the large intestine.

Indications

Constipation
Colonoscopy
Opioid and Cancer Treatment

THE ULTIMATE LAXATIVE COMPOSITION IN THE MANAGEMENT OF CONSTIPATION

Catch Deep Seated Infections with....

CEFBRAN-100

Cefixime 100mg TABLET

The Bactericidal with a
Magnified Protection Approach

- Broad spectrum antibiotic with activity against both gram positive and gram negative organisms
- Highly stable in the presence of beta-lactamase enzymes
- More active than co-trimoxazole against providencia stuarti, proteus vulgaris and klebsiella species
- Prime choice for switch therapy (from parenteral to Oral) owing to its very good efficacy and safety profile

Also Available

CEFBRAN-200

Cefixime 200mg TABLET

CEFBRAN-50

Cefixime 50mg Dry Syrup

Indications:

- Typhoid • Soft Tissue Infection
- G.I. Tract Infection • R.T.I, U.T.I
- Otitis Media • Gonorrhoea

A Safe Stand For Assured Faster Recovery

To get the *perfect grip*
over the infection....

CEFBRAN-0

Cefixime 200mg + Ofloxacin 200mg Tablets

CEFIXIME :

- Possesses excellent efficacy against a broad spectrum of pathogens, including Haemophilis influenzae, Streptococcus pneumoniae and Moraxella catarrhalis
- 100% susceptibility against bacteria causing urinary tract infections
- Cefixime would be considered an effective alternative to IV therapy against common Respiratory Pathogens

OFLOXACIN:

- Extensive penetration into tissues & fluids
- Greater penetration than ciprofloxacin in intraocular chamber

Also Available

CEFBRAN-CV

Cefixime 200mg + Potassium Clavulate 125mg Tablets

INDICATIONS:-

- Skin & Soft Tissue Infections
- Urinary Tract Infections
- Gynecological Infections • G.I. Tract Infections • Typhoid Fever

The Tough Combination for Tougher Situations

CEFOPRO-CV

Cefpodoxime 200 mg & Clavulanic Acid 125mg Tablets

CEFPODOXIME

- Broad spectrum bactericidal antimicrobial
- Ideal for switch over therapy from parenteral to oral
- Shows greater tissue penetration than cefixime

CLAVULANATE

- Kills even ESBL producing pathogens
- Excellent coverage against most Gram-ve pathogens

INDICATIONS:

- Nosocomial Infections
- Surgical prophylaxis & complicated wounds
- Skin & Soft tissue infections
- Uncomplicated UT

Also Available:-

CEFOPRO 50

Cefpodoxime 50mg Dry Syrup

CEFOPRO- 200

Cefpodoxime 200mg Tablets

Crack Resistance
 Ensure **Therapeutic**
 Success With..

MOXYM-CV 625

Amoxicillin 500mg + Potassium Clavulanate 125mg **Tablets**

Amoxicillin

- * INHIBITS the bacterial cell wall synthesis.
- * It's a bactericidal agent having both gram +ve and gram -ve coverage.

Clavulanic Acid

- * Clavulanic Acid inhibit a wide range of beta-lactamase strains and protects amoxicillin from degradation.

Also Available

MOXYM-CV 228.5

Amoxicillin 200 mg + Potassium Clavulanate 28.5 mg **Dry Syrup**

MOXYM-CV DUO

Amoxicillin 400 mg + Potassium Clavulanate 57 mg **Dry Syrup**

ROLIZITH

Azithromycin 250 mg/500 mg Tab

250
500

- ▶ Longer and higher tissue concentration
- ▶ A macrolide antibiotic with unmatched characteristics
- ▶ Shorter duration of treatment with just once a day dose
- ▶ Short course of Azithromycin is as efficacious as Clarithromycin
- ▶ Highly effective against intracellular pathogens such as mycoplasma, chlamydia, legionella & salmonella
- ▶ 5 day course of Azithromycin is an effective treatment for uncomplicated typhoid fever in children & adolescents

Indications

- RTI
- Intra-abdominal infections
- Osteo articular infections
- SSTI
- Urinary tract infections
- ENT infections

Also Available:-

ROLIZITH-XL 200

Azithromycin 200mg **Suspension**

Effectiveness...**

OFTHICS-OZ

Ofloxacin 200mg + Ornidazole 500mg Tablets

HIGH EFFICACY

- Synergistic effect against some species of anaerobic bacteria such as *B. fragilis*
- Broad spectrum coverage of both bacteria and protozoa in a variety of infections

TOTAL COMPATIBILITY

- Ornidazole has longer plasma half-life than metro and tinida allowing b.i.d. dosage
- Significantly improves compliance since the number of pills to be taken are reduced by half

ENHANCED SAFETY

- There are no interactions between the two drugs
- Ornidazole is better tolerated than metro and tinida

- Diarrhoea and Dysentery
- Orofacial and Dental Infections
- Pelvic Inflammatory Disease
- Mixed GIT Infections

Also Available

OFTHICS-MS

*Ofloxacin+ Metronidazole+
Simethicone Suspension*

OFTHICS-200

Ofloxacin 200mg Tablets

Spells doom for infections

MEDIZOLID-600

Linezolid 600mg

Tablet

Frequently used to treat not only vancomycin-resistant Enterococcus (VRE), but also vancomycin-sensitive Enterococcus (VSE) infections

Is a cost-effective alternative to vancomycin in the empiric treatment to patients with suspected MRSA nosocomial pneumonia

is appropriate to achieved the safety and efficacy MRSA-caused infections

Is a commonly used antibiotic for the treatment of complicated skin and skin structure infections including diabetic foot infections

Indications:

- Nosocomial infections
- Skin infections
- Soft tissue infection
- Diabetic foot infections

Also Available

MEDIZOLID-100

Linezolid 100mg Dry Syrup

Adaptable to the strongest conditions

The Fishing Anthelmintics
for Greater Clinical Success

MEDIWORM

Albendazole 400mg **Tablets**

Broad Spectrum

Excellent Tolerability

Total Safety Profile

- Single dose Convenience in
- Eliminates risk of re-infestation
- Acts on the stages of Helminthiasis

- Ascariasis
- Trichuriasis
- Hydatid cyst
- Strongyloides
- Neurocysticercosis
- Pin worm infestation
- Hook worm infestation

Also Available

MEDIWORM

Albendazole 400mg

Syrup

**Single dose treatment
of worms eradication**

**Fungal Infections
Can be tough
to Eradicate**

ITRION-100/200

Itraconazole 100/200mg Capsules

- ★ Broad spectrum of action with efficacy against aspergillosis, Histoplasmosis, Candidiasis as well as fungal infection of toe nails and onychomycosis
- ★ A potent fungistatic that is effective even in immuno compromised patients
- ★ Itraconazole was tolerated significantly better than conventional AMB and also showed advantages regarding efficacy
- ★ Itraconazole is a useful and safe agent in empirical antifungal therapy

INDICATIONS

Aspergillosis

Cryptococcosis

Candidiasis

Sporotrichosis

COMPLETE ERADICATION IF TOUGH FUNGAL INFECTIONS

LULIPRIX

Luliconazole 1% w/v

Cream

- ➔ Luliconazole is used to treat skin infections such as
 - Athlete's Foot
 - Jock Itch
 - Ringworm
- ➔ Luliconazole is an azole antifungal that works by preventing the growth of the fungus

1. Treating certain fungal infections of the skin
2. Luliconazole cream is an antifungal agent
3. It works by killing sensitive fungi by interfering with the formation of the fungal cell membrane and weakening it.

POVINOVA-M

Povidone Iodine, Metronidazole with Aloe vera

- Kills through of lipids and oxidation of cytoplasmic and membrane compounds
- Exhibits a broad range of microbicidal activity against bacteria, fungi, protozoa and viruses
- Generous foaming action helps loosen foreign matter on the skin
- 100% effective and non-irritating
- Slow release of iodine minimizes iodine toxicity

Also Available

POVINOVA-S

Povidone Iodine with Sucralfate

POVINOVA

Povidone Iodine USP w/w 5%

Indicated In:

Burns

Impetigo

Ulcers

Boils

Clean Hair With

KETONYM-Z

Ketoconazole With Zpto Medicated Shampoo

Ketoconazole

- * Completely Eliminates the P.ovale
- * Prevents Recurrence
- * Impairs the synthesis of ergosterol, a component of fungal & Yeast cell membranes

ZPTO

- * Zinc Pyrithone, kills or reduces the population of the yeast which propagates dandruff
- * Controls flaking & Seborrhoea

- DANDRUFF
- SEBORRHOEIC DERMATITIS
- PITYRIASIS VERSICOLOR

Also Available

KETONYM-Z

Ketoconazole With Zpto Medicated Soap

R-Gerd DSR

Enteric Coated Rabeprazole Sodium 20 mg &
Sustained Release Domperidone 30 mg Capsules

Rabeprazole

- * Exhibits potent gastric acid suppression
- Achieves optimal acid suppression since the first dose and activated much faster than other PPIs

Domperidone

- * Increase the gastric emptying rate and clearing the region of the residual food, lowering the chances of gastric hyperacidity.

GERD | Dyspepsia | Chronic Gastritis | Post-operative Nausea and Vomiting

Nausea associated with Acid Peptic Disorders

Also Available :

R-Gerd 20
Rabeprazole 20 Tablets

... Long Lasting Protection

The powerful & Challenging combination

E-Gerd DSR

Esomeprazole 40mg + Domperidone 30mg Capsules

ESOMEPRAZOLE:

- Esomeprazole is a proton pump inhibitor (PPI)
- It work by decreasing the amount of acid produces in the stomach

DOMPERIDONE:

- Increase gastric mobility restores LES tone normalizes perstaisis & synchronizes antral duodenal contractions.

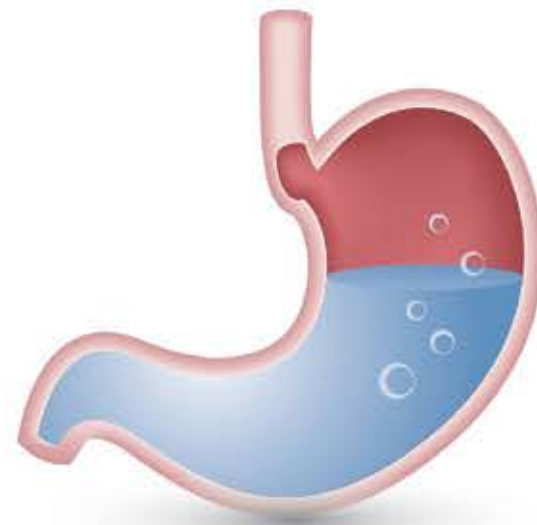

INDICATION:

- Gastric Ulcer ■ Non Ulcer Dyspepsia
- GERD ■ Zollinger Eliison Syndrome

Also Available

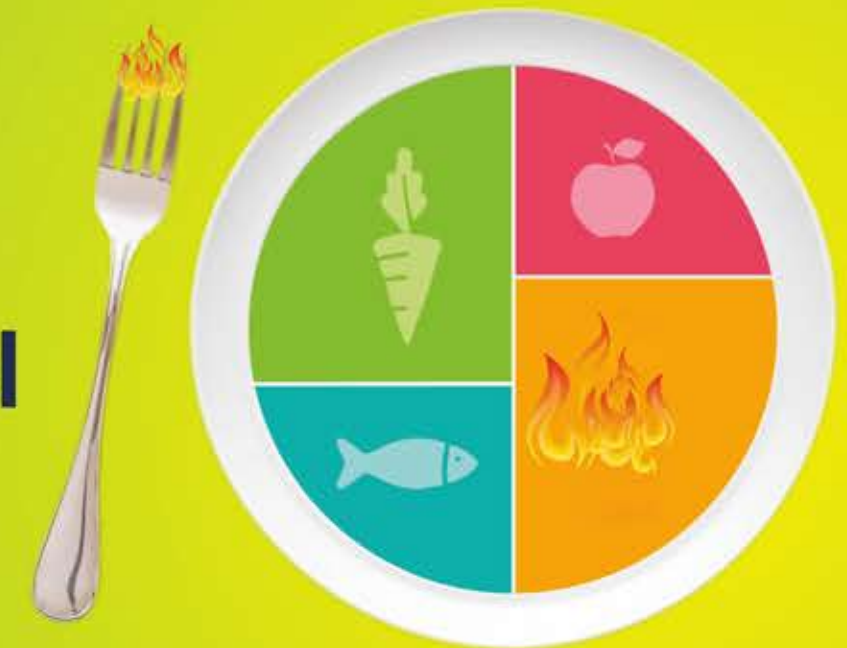

E-Gerd 40

Esomeprazole 40mg Tablets

Working together ensure great result..

When
Everything
Makes Feel

Ryanzyme

Fungal Diastase with Pepsin Enzyme Syrup

Fungal Diastase ...

- A comprehensive treatment for all digestive disorders
- Effective in diarrhea, constipation, burps and belches
- Eliminates sense of fullness, nausea, vomiting present after meals

Pepsin ...

- is an enzyme that breaks down proteins into smaller peptides (that is, a protease). It is produced in the stomach and is one of the main digestive enzymes in the digestive systems of humans

INDICATIONS

- Loss Of Apetite
- Disturbance Of Protein Digestion
- Indigestion
- Diarrhoea

Also Available
Ryanzyme Junior

Fungal Diastase with Pepsin Enzyme Drops

Effective Combination For Entire Digestive System

Ryancyp

Cyproheptadine 2mg + Tricholine Citrate 275gm+
Sorbitol Syrup base (Sugar Free) Syrup

- ▶ Accepted clinical combination for stimulating appetite & growth
- ▶ Shows stimulatory effect on growth hormones
- ▶ Tones up the entire digestive system
- ▶ Promotes weight gain

Loss of Appetite

Anorexia

Weight Loss

Also Available

Ryancyp Junior

Cyproheptadine 1.5mg + Tricholine Citrate 55mg Syrup

Chronic Gi Relief And Improves Digestion

Sorbitol safety be given to diabetics

Complete protection
for Healthy liver

INDILIV ^{100ml} ^{200ml}

Tricholine citrate, Andrographolides with Sorbitrol **Syrup**

- Protects the liver by acting as an antioxidant and by promoting the growth of new liver cells
- Helps with the digestion of fats
- Helps keep harmful substances out of liver cells
- Helps prevent or reverse liver damage caused by alcohol, pesticides, some poisons, or hepatitis

Alcoholic liver disease

Cirrhosis of liver

Chronic hepatitis

Drug induced liver damage
